WHAT WE HAVE DELIVERED

- 01 Trust culture centered around what is important (Scuba Diving!)**

Our focus is more diving and fun!

- 02 Cheapest in Melbourne prices**

We promise to keep prices and courses accessible to uni students

- 03 New Nitrox Compressor & Gear**

New computers, fins and suits. Top of the range Nitrox Compressor

- 04 Vison & Leadership**

Establishing transparent processes that minimizes time and errors, increasing club dive and social activities

Budget usage (this year we spent more on gear purchases, and servicing car + boat)

OVERAL REPORT/ MAIN HIGHLIGHTS

Our year on year Revenue and Expenses are very consistent and predictable when it comes to the broad categories. Therefore, we base our yearly budgets on the long term average, and adjust them slightly each year.

Our biggest accomplishment in 2025 is the purchase of our new top-end Nitrox compressor! It was a major feat to replace our aging 20yr old comp. Congratulations to all involved, and a testament to the growing success of the club.

Due to the aging car, more servicing was required this year to keep it running. This included air-con, suspension and mechanical parts due to wear and tear. We are currently planning for an earlier replacement of the vehicle and are reviewing options.

Other major ticket items included purchasing of lots of new gear, including new male and female suits to match all sizes, new computers, safety gear, fins and weights. This increases capacity for the growing number of active members in 2025/2026!
